SUMMARY

Recent Biology graduate with hands-on molecular biology, cancer research, and applied data-analysis project experience. Skilled in qPCR, ELISA, Western blot, cell culture, aseptic technique, Python, SQL, R, and database-backed workflows. Seeking entry-level research, technical, or data-adjacent roles where laboratory judgment and analytical programming can support reliable scientific operations.

TECHNICAL SKILLS

Laboratory: qPCR, ELISA, Western blot, cell culture, aseptic technique, GMP/SOP documentation

Data & Programming: Python, pandas, NumPy, SQL, SQLite, R, dplyr, ggplot2, MATLAB; Jupyter notebooks

Software: Microsoft Office Suite, Git/GitHub, Flask, Bootstrap, matplotlib/seaborn, VSCode

PROJECTS & DATA EXPERIENCE

BiTE Functional Screening Analysis | Python, pandas, notebooks, CSV data | *Personal data analysis project*

- Analyzed cleaned supplementary data from a CD19xCD3 BiTE droplet microfluidics screen to compare starting library composition against functional hits.
- Calculated enrichment ratios across orientation, linker type, CD3 scFv, and CD19 scFv variables to identify features retained after screening.

Koi Behavioral Response Analysis | R, dplyr, ggplot2, chi-square testing, GitHub | *Public project: ekordovi/KOI_project*

- Analyzed field observations comparing koi responses to a human hand and simulated predator stimulus using categorical behavior data.
- Calculated behavior proportions, visualized response patterns, and interpreted a non-significant chi-square result with appropriate limitations.

RoVino Inventory Management System | Python, Flask, SQLite, SQL, GitHub | *Public project: ekordovi/RoVino_Inventory*

- Built a Flask/SQLite inventory app with CRUD workflows, category filtering, low-stock alerts, restock history, authentication, and admin controls.
- Designed relational tables for inventory, users, restocks, and notes; exposed inventory records through a JSON API for future reporting.

Python Data Analysis Training | Python data-analysis coursework

- Completed a five-course Python data analysis series covering practical data handling, analysis workflows, and foundations for applied analytics projects.

RESEARCH & TECHNICAL EXPERIENCE

Undergraduate Researcher | House Lab Cancer Research, SDSU - San Diego, CA | Aug 2022 - May 2023

- Supported molecular biology and protein-analysis experiments involving RNA extraction, cDNA synthesis, qRT-PCR, BCA assays, SDS-PAGE, Western blotting, and native PAGE.
- Evaluated COL6 protein expression using native western blot data and GAPDH normalization across ovarian cancer model conditions
- Maintained careful experimental records and collaborated within a research setting requiring accuracy, reproducibility, and attention to protocol.

Aseptic Cleaning Technician | Ajinomoto Bio-Pharma Services - San Diego, CA | Mar 2021 - Aug 2021

- Performed laboratory sanitization under GMP and SOP expectations while maintaining sterile clean-room environments.
- Documented procedures and equipment logs with high accuracy in a regulated bio-pharma environment.

PROFESSIONAL EXPERIENCE

Manager / Bartender | RoVino Rotisserie & Bar - San Diego, CA | Nov 2024 - Feb 2026

- Oversaw bar operations, inventory, and staff scheduling; promoted to Manager after eight months.
- Trained bartenders and servers while improving daily service consistency, workflow organization, and customer experience.

Server | Pacific Terrace Hotel - Bartell Hotels - San Diego, CA | Jun 2023 - Nov 2024

- Delivered dining and room-service guest support in a high-service hotel environment; trained new hires after nine months.
- Received Employee of the Month in Oct 2024 for exceptional customer experience and team reliability.

EDUCATION

B.S. Biology | San Diego State University, San Diego, CA

- Relevant coursework: Molecular Biology, Biochemistry, Genetics, Biostatistics, Organic Chemistry I & II.

LEADERSHIP & VOLUNTEER ACTIVITIES

- Academic Chair, Alpha Epsilon Pi Fraternity: mentored 125 undergraduates and supported academic accountability.
- SDSU Division I Hockey Team member; Treasurer, Greeks Gone Green; medical volunteer in Ensenada, Mexico; volunteer hockey coach.
